

KAZARA DIAM

Ring Size Guide

Before you start

Print this page on standard Letter (8.5 × 11 in) paper with scaling set to **100% / Actual size** (not “Fit to page”). Then check the bars on the right with a ruler. If they don't measure exactly, the sizes below won't be accurate.

Method 1 — Paper ring sizer

You need

- This printed page
- Scissors

1. Cut out the strip below along the dotted line, and cut a small slit on the “CUT SLOT” line.
2. Wrap it around the base of your finger and pass the pointed end through the slit.
3. Pull until it feels snug but comfortable. The number at the slit is your US ring size.

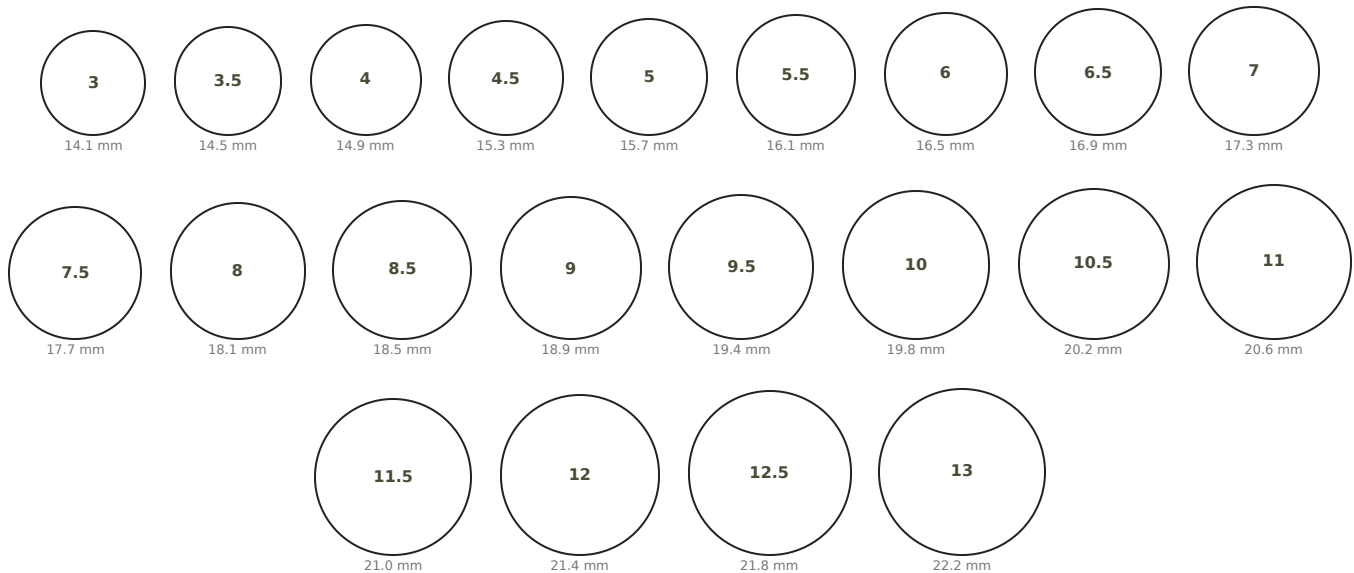

Method 2 — Use a ring you already own

You need

- This printed page
- A ring that fits well

1. Pick a ring that fits the same finger comfortably.
2. Place it over the circles below. The right size is the circle whose line sits exactly on the **inside edge** of your ring.
3. If it falls between two circles, choose the larger size.

KAZARA DIAM International Ring Size Chart

USA	Canada	UK	Australia	New Zealand	Germany	Inside Diameter (mm)	Circumference (mm)
3	3	F	F	F	44	14.07	44.2
3.25	3.25	F½	F½	F½	45	14.27	44.8

13	13	Z+1	Z+1	Z+1	70	22.20	69.7

Sizing tips: measure at the end of the day when fingers are warm · measure 3-4 times · if your knuckle is larger, size over the knuckle · wide bands (6 mm+) fit tighter, consider ¼-½ size up.
